GREAT LANDSCAPES START HERE

Whispering Pines

a division of Lennox Landscapes Ltd.

Whispering Pines is a full service Landscape Design and Construction company providing quality complete design, construction and planting services in the Calgary region.

An aerial photograph of a large, multi-story house with a stone facade and a large stone patio leading to a swimming pool and tennis court. The house has a prominent central gable and several smaller gables. The patio is made of large, light-colored stones. The pool is rectangular and surrounded by a stone border. The tennis court is green and surrounded by a stone border. The house is surrounded by lush green trees and a well-manicured lawn. The sky is blue with some white clouds.

With over two decades of experience, Whispering Pines Landscaping has established a position as recognized craftsmen. By challenging the status quo in design and pushing the limits of engineering, we promise you an abundant outdoor living experience that is way beyond ordinary.

Take a leisurely stroll or drive through Calgary's finest neighbourhoods and you'll notice that the truly great homes combine urban architecture with comfort laden outdoor living. What makes a home stunning doesn't start at the doorstep; it begins at the curb and extends to the very edge of the property.

WELLAND WAY

FROM VISION TO REALITY

From conception to completion, our experts worked with the home owners through every phase of construction to ensure all was executed to perfection and their landscape dreams came true.

CUSTOM FEATURES

Gaining the most enjoyment from your home sometimes involves landscape enhancements that make your property absolutely spectacular. The right custom feature can transform the average yard into a truly unique outdoor space. From the simplicity of an address boulder or children's play area to the affluent convenience of a multi-purpose sport court or full-service outdoor kitchen, Whispering Pines have both the experience and expertise to take your dream backyard from inception to completion.

Enhance the appeal of your property with the timeless beauty of natural stone. From retaining walls to garden accent boulders, landscaping with natural stone offers a great deal of versatility and flexibility in enriching and beautifying your outdoor space.

Whether you are looking to improve the distinction and sophistication of your home or prefer the combination of organic style and functionality, natural stone is an excellent way to achieve your landscaping vision.

NATURAL STONE

PRECAST CONCRETE

With an explosion of styles, colours, and texture over the last 50 years, interlock has really changed. Paving stone can add a lasting decorative element to any yard because of their beautiful design while providing a durable option when properly installed. There are a variety of choices available which can be used in a multitude of styles to achieve the desired look. These concrete pavers can create paths, patios, fire pit areas, and are often used for borders between grass and gardens to aid in lawn maintenance.

Trees and shrubs are a great investment with a guaranteed return. Whether you need one or one hundred...we've got the trees and shrubs for you!

Adding trees and shrubs to your property not only provides natural beauty and privacy, but instantly increases its curb appeal. We at Whispering Pines have worked closely with the local nurseries for years to cultivate a strong relationship based on knowledge sharing of past experiences and recent findings from industry studies to ensure only those plants with a proven success rate are recommended to our clients.

TREES & SHRUBS

Installing a watering system helps transform the grass into a beautiful, healthy lawn. Automated irrigation is not only the most efficient way to ensure a yard's proper hydration but it also saves time, money and most importantly, water.

EARTHWORKS

Whether it's the construction of a boulder retaining wall, paving of an asphalt driveway or full scale grading of an acreage property, the team at Whispering Pines are equipped to tackle any landscaping job.

SEED & SOD

The many reasons for ground cover can vary from the aesthetic to the necessary, so we offer a number of effective solutions based on your specific needs. More often than not, the installation of thick, healthy sod is what can instantly transform a yard of bare dirt into a beautiful, lush lawn. For our projects on acreage properties where the area is expansive, an advanced seeding option (either Hydro or Terra) may be the best solution for dust and erosion control. Finally, an ideal organic and maintenance-free resolution for both weed suppression and planting bed enhancement is an application of shredded bark mulch.

Blown-In Mulch

Hand Seeding

Hydroseed Spraying

Terraced Applications

Sod Stripping and Replacement

LANDSCAPING 101

Designing a plan for your property should be an exciting and enjoyable experience. With a little bit of planning, research and decision making, we can help you create the space that most suits your tastes and lifestyle.

IDEAS TO GET YOU STARTED

Make a list to help frame what is important. How will the yard be used for parties, gardening, kids playing, privacy, sun, shade, fires and access?

Walk around the neighbourhood and take photos of the yards you like to spur the imagination.

The internet is a great resource for ideas. Our lennoxltd.com website has examples of exemplary work. Also check barkman.com, bluegrassnursery.com, burnco.com and expocrete.com for materials.

A visit to the local landscape centre to view the products up close helps gain a feel for colours and textures.

Book a site meeting with Whispering Pines to discuss your vision and all the possibilities for your yard!

OUR PROCESS

At Whispering Pines our goal is more than a perfect outdoor living space. It's about making the whole experience a rewarding one for our clients. To this end, we offer a friendly, open attitude, informative dialogue and a thorough management of the creation process.

CONSULTATION
A site meeting is held to discuss the specific needs of the client and possibilities of how the area could be used.

DESIGN CONCEPT
A drawing of the property is presented which illustrates key elements that were discussed during the initial consultation.

PROJECT QUOTATION
Based on the design concept, a detailed proposal is presented that includes all components required for the project's completion.

Whispering Pines
a division of Lennox Landscapes Ltd.

Proposal

Montane Garden

Mulch not only looks and smells great but it is also a natural weed suppressant that reduces water loss, adds nutrients to the soil and insulates against the hot and cold.

DESIGNS FOR MODERN LIVING

Your home is your space and you've spent considerable time making it your own. As you look out your window, you may be wondering how to maximize it, extending the interior you love so much to the exterior. Is there a way to take your creative vision outside to make the most of outdoor living? There is. It requires equal parts vision and artistry, craftsmanship and precision, tenacity and patience. When these come together the outcome is a functional masterpiece that mingles sophisticated design with healthy, rejuvenating outdoor living.

OUTDOOR ORIGINALS

And much like a work of art, your landscape should bring you pleasure, year after year. As the elements weather the materials and the plants mature, a well-engineered landscape endures. Whispering Pines develops landscapes that appreciate while you're appreciating them.

It's a well-known fact that what one does with great pleasure, one does best. At Whispering Pines, this philosophy lives at the root of our culture as a company. We love creating singular outdoor living spaces that will truly become part of the fabric of a home.

ADDITIONAL SERVICES

Whispering Pines provide a wide array of landscaping services that can enhance the look and appeal of your outdoor space as well as raise the value of your property. Through a refined process and skilled project management, we are able to move from design concepts through to their realization. Whether it is something as basic as a chain-link dog enclosure or as sophisticated as a paving stone driveway accented handsomely with an LED lighting system, Whispering Pines succeed in offering superior landscape construction service.

OUR PROMISE

We understand that weeding out the inferior landscape companies can be a daunting task. It's possible that you're weary of even starting because you've been utterly disappointed in the past by uninspired designs or poor craftsmanship. Or maybe the experience was just too fraught with headaches to do over again. At Whispering Pines, we crown our creative vision and building precision with a caring experience you'll never forget. After all, you're probably busy, and it's not every day that you get to pursue the outdoor space you've been dreaming about. So let's make it enjoyable!
